

# Download A Pragmatic Guide To Business Process Modelling

Business process modeling (BPM) in business process management and systems engineering is the activity of representing processes of an enterprise, so that the current process may be analysed, improved, and automated. BPM is typically performed by business analysts, who provide expertise in the modeling discipline; by subject matter experts, who have specialized knowledge of the processes being ...Safety Risk Assessments.

Collaboration is key to our approach. Our teams work with our clients to provide clear outputs that can then be fed into pragmatic risk management solutions. Training Courses.
