In this lesson you'll learn about monerans, the group of organisms that bacteria belong to. Discover the name's history and the function(s) of different types of bacteria in the environment. 2016 ...Natural Killer Cell Definition. Quick to react, super-speed, and the strength to kill invaders - nothing short of a superhero. I'm not talking about Superman, but pretty close - natural killer (NK ...Link to Departments website. The major in Accounting at UGA is designed to give students an understanding of the theory of accounting as it is used in our society: accounting standards, financial statement preparation, product costs, budgeting, taxation, auditing, risk assessment, and controls. There are two ways that natural and man-made things can use rotation to move around. One way is for the entire thing to roll. The other way is for part of the thing to turn while the rest does not, like a wheel or a propeller. Some living things move around by rolling, but no living things seem to use wheels.
