Sample Wrench is an extensive digital audio analysis and editing tool that runs under Windows. Formerly a commercial product for many years, I recently placed this as non-commercial redistributable freeware. It is useful for coursework in electronics, audio, acoustics, music production and the like. Lab-on-a-chip (LOC) devices are broadly used for research in the life sciences and diagnostics and represent a very fast moving field. LOC devices are designed, prototyped and assembled using numerous strategies and materials but some fundamental trends are that these devices typically need to be (1) sealed, (2) supplied with liquids, reagents and samples, and (3) often interconnected with ... a.n.design works NT260POCKET SCIENCE LAB All in One Device.
