A master class in contemporary art by one of the preeminent painters of our time. How does art work ? How does it move us Disappointing to me. It was no more illuminating about one critic's experience with an art work than any other review of an artist's work. Overall it had interesting information and comments but the title is very misleading. It did not inform how to see, look, talk, or think about art. If John Berger's Ways of Seeing is a classic of art criticism, looking at the 'what' of art, then David Salle's How to See is the artist's reply, a brilliant series of reflections on how artists think when they make their work. The 'how' of art has perhaps never been better explored. Salle writes with humor and verve, replacing the jargon of art theory with precise and evocative descriptions that help the reader develop a personal and intuitive engagement with art. The result: a master class on how to see with an artist's eye.
