

# Download Human Biology Lab Manual Answers

Alcoholic fermentation uses enzymes to convert glucose into ATP (which the cell can use to do work) in the absence of oxygen. Alcohol and carbon dioxide are also produced in this reaction. The Biology Project, an interactive online resource for learning biology developed at The University of Arizona. The Biology Project is fun, richly illustrated, and tested on 1000s of students. It has been designed for biology students at the college and high school level, but is useful for medical students, physicians, science writers, and all types of interested people.

1. INTRODUCTION - OVERVIEW - Biology as a science deals with the origin, history, process, and physical characteristics, of plants and animals: it includes botany, and zoology. A study of biology includes the study of the chemical basis of living organisms, DNA. Other related sciences include microbiology and organic chemistry. AP's high school Biology course is a rigorous, college-level class that provides an opportunity to gain the skills and experience colleges recognize.
