Updated February 9, 2018 CCS Exam Allowable Code Books Effective May 1, 2018 All candidates are required to bring the following code books to the test center: The 2018 Official New York State Workers' Compensation Medical Fee Schedule provides coding and billing guidelines for the care of workers injured in the state of New York. The fee schedule includes CPT ® codes, descriptions, follow-up days, professional and technical components, relative values, conversion factors, ground rules and general instructions, and guidelines for providers and payers. The South Carolina Workers' Compensation Commission's 2019 Medical Services Provider Manual contains the policy governing the Commission's Medical Services program and a schedule of maximum allowable payment (MAP) amounts for services covered by the program. All policies and MAP amounts are effective for dates of service on or after April 1, 2019. Our expert editions of the ICD-10-CM and HCPCS Level II code books are the highest quality versions and loaded with additional information. These books are enhanced with unique features often including additional tables and crosswalks, code alerts, icons and appendices, definitions, rules, and references.
