Beresford, Anthony Kenneth Charles and Pettit, Stephen John, eds. 2017. International freight transport: cases, structures and prospects. Kogan Page. International Freight Transport is a comprehensive book that coherently presents the key changes and issues in the fast-moving industries of trade and transport. These changes could redraw the trade map with major implications for transport patterns and solutions. International Freight Transport presents the key changes and issues in the fast-moving industries of trade and transport. It includes coverage of regional trade groupings, the emergence of new large economies (i.e. BRIC countries), and pivotal regions such as the Middle East and Central America where major projects, such as new and widened canals, are underway or planned.
