The nurse evaluates that learning has occurred when the clients make which responses? Note: Credit will be given only if all correct choices and no incorrect choices are selected. Capitalism is an economic system based on the private ownership of the means of production and their operation for profit. Characteristics central to capitalism include private property, capital accumulation, wage labor, voluntary exchange, a price system, and competitive markets. In a capitalist market economy, decision-making and investment are determined by every owner of wealth, property ...
