See search results for this author. Are you an author? ...Pediatric Allergy, Asthma, and Immunology Asthma and allergy symptoms can have a big impact on a child's quality of life. At Cooper University Health Care, our specialists provide expert, compassionate care for children with allergies, asthma, and immunological conditions. Pediatric Allergy, Immunology, and Pulmonology is a peer-reviewed journal designed to promote understanding and advance the treatment of respiratory, allergic, and immunologic diseases in children. The Journal delivers original translational, clinical, and epidemiologic research on the most common chronic illnesses of children—asthma and allergies—as well as many less common and rare diseases. Pediatric Allergy, Asthma and Immunology. Educational objectives: To expose the student, either through clinical encounters, bedside teaching or didactic lectures/problem-based learning modules to the following diseases and procedures:
