The thing that people worldwide are quickest to comment on when praising America is the "can do" attitude that is seen as a major part of the country's philosophy. I have a Saturn Ion-3. How do I check and fill auto transmission on the same? Thanks for visiting Just Answer. The check engine light comes on when the on-board computer detects a fault in engine driveability or performance, transmission control system or transmission, or the emissions system, and a fault code is set and stored in the computer. You don't need to run around in search of repair parts for your Saturn. You'll find everything you need for a successful repair right here on our digital shelves.
